Tuesday Garden Visits

The G G Garden

Attendees will visit Gail's garden for lunch. We will leave the Convention Centre by either mini-bus or car-pooling, (depending on numbers) at 11am. Arriving at Gail's garden in Hawthorn at approximately 11: 20am.

A former President of CSSSA, Gail's garden is a combination of the work of Gail Gunn and Glen Gates with a nod to Graham Grant. Gail originally started planting cacti in the ground more than 20 years ago. In the last three years, fellow CSSSA Member, Glen Gates has added lots of ideas, expertise and hard work to upgrade the garden. The plants have grown beautifully during all the various Covid lockdowns.

There are cacti and succulents, most grown by Gail from seed and some natives that were already planted. There's a hot house that a working bee of members shifted one day, and another hot house that Glen re-roofed for Gail. The strong men of the Society have been very obliging!

Scattered throughout the garden and snuggled amongst the plants

are *objects junque* . Gail hopes you will find these amusing.

Plant Sales Available

“Enjoy my garden because it has given me much enjoyment.”
Gail Gunn
